3rd Prizes—
Lady's, Box Fancy Stationery.
Gentleman's, Pipe Rack

nameless wanderer, makes, the supreme sacrifice to preserve the happiness of the woman he loves. This graphic story is fully outlined in Cecil B. De Mille's splendid special production for Artcraft, "The Whispering Chorus."

This is a photoplay of unusual power and distinctive heart appeal. It embraces all elements of human interest and it is inevitable that in its development the gamut of human emotions is run. Its various details have been worked out with extraordinary skill of craftsmanship, the result being a cinema offering of exquisite artistry and effectiveness.

English Church

Services will be conducted in the English Church, on Sunday, Feb. 16. Morning services at 11. Evening services 7.30. Rev. F. R. Hillary, pastor.

FRIDAY & SATURDAY

February 14th and 15th
At The Grand Theatre

Special Notice! In order to protect our patrons, we must insist that persons Coughing, Sneezing or Spitting inside the theatre must use their handkerchiefs, or they will be requested to leave the hall. Not a single case of influenza can be said to have emanated from this theatre and we intend to keep up the good work.

Admission: adults, 25c

Board of Trade

A special meeting and the adjourned annual meeting of the Empress Board of Trade, was held in the City Hall, on Thursday, February 6.

The Secretary's report, for the year was read for the information of the members.

Receipts from all sources

Disbursements	415 55
Cash on hand	321 24
Cash in bank	55
Secretary's report was accepted.	93 76

The following were elected officers of the Board for the year 1919.

R. M. Henderson, president, J. Ira McLean, vice-president. M. A. Blodgett, Sec. Treas. Executive committee: J. N. Anderson, N. D. Storey, J. Casack, Scott Brown, H. H. Hall W. R. Brodie.

The matter of road improvement on the north side of the Red Deer river, was much discussed. A communication from H. S. Carpenter, of the Prov. Dept. of Mun. Highways, was read. It was considered advisable that the Secretary confer with Mr. Wm. Howles on the matter before taking further steps. Car.

It was moved that the Presi-

dent be a committee of one to act with the allied local societies in the matter of Returned Soldiers Civil Re-establishment in this district.

The matter of Seed Grain supply to farmers financially unable to secure same was discussed at considerable length. It was stated that the Prov. Government cannot do anything in the matter, and the respective municipalities apparently must handle the question.

It was moved that the thirty-nine slogans received by the Board be placed on file. That the choice of a slogan be deferred and the contest continued.

Captain Blodgett was declared winner of the membership contest with a score of, ninety-nine members. Captain Henderson's score was forty-five members.

Arrangements were made that a banquet be held on Saturday, February 8th at the Empress Hotel Grill.

The Whispering Chorus

His conscience awakened by "The Whispering Chorus," whose clinging melody stirred his heart and brain and quickened gnawing remorse, John Trimble, thief, fugitive and

Restoring Peace to the World

The eyes of the world are focused on Paris where the sedate status of the civilized nations are deliberating in the Peace Conference, endeavoring to reach solutions of the many great problems confronting mankind, solutions which must be found if lasting peace is to be attained and the interests of all people adequately safeguarded. The British Empire and Canada as a nation within the Empire, is represented in the Peace Conference and with the deliberations in the French capital it is not our intention to deal. The question to which the attention of the people of Western Canada may, however, be directed is what part, if any, they are yet called upon to play in making the world safe for democracy.

The general tenor of all reports from Paris is to the effect that the most difficult of all problems confronting the Allies is not how to deal with our enemies of the past four and a half years, nor is it how to adjust in an amicable and satisfactory manner the opposing interests and claims of the Allies, differing as these may be. The outstanding problem which gives rise to keen anxiety in all countries is how to check disunity, Bolshevism, anarchy, which is spreading from Russia into many countires, particularly in Europe.

Can the people of Western Canada do anything to assist in this great task? Apparently they can do much, if President Wilson and the Allied leaders now in conference in Paris have sized up the situation correctly. They have come to the conclusion that just as the provision of an adequate supply of food was a prime essential to winning the war, so is food supply the keystone to the re-establishment of order and good government throughout the world. People who are hungry and starving, and suffering all the distress which lack of food means, cannot be reasoned with nor controlled. Lack of food to sustain life encourages lawlessness.

As always—
food will
play a big
part

TROOPS IN TURKEY

Paris. — The military representatives of the supreme war council in accordance with the instructions given them by the council, are taking steps to secure an early meeting to arrange plans for the distribution of the entente forces, if the latter should be necessary, within the Turkish empire. French reports of maladministration of the Armenians and other subject races by local Turkish governors and the refusal by the Porte to accept the necessary corrective measures are understood to have been the reason for the action of the council.

Early Plowing

Energetic Farmer Already Plowed Section This Year
A tribute to the busy, sunny and mild weather which Alberta has been experiencing this month is the fact that plowing has been possible. Pulling eight plows with a 30-hp tractor, James W. Dow has just finished plowing a section of land near Calgary, and according to a report in a Calgary newspaper, is now preparing to disc 200 acres ready for spring seeding.

Writing to Calgary for some repairs, Mr. Dow stated he was not having the least difficulty in getting the plows to work.

But it is for Lame Back—A skin ailment which is common to all livestock will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissue and bring speedy relief. Try it and be convinced. As the liniment sinks in the pores comes out and there are ample grounds for saying that its touch is magical, as it is.

When a man helps his wife with the housework, it takes him about twice as long to finish.

Minard's Liniment Cures Garget in Hens.

The Hun may be beaten but he is still far from being humble.—Detroit Free Press.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

Your restless eyes and women who are pestered with corns and who have at least once a week to visit a doctor, are now told by a Cincinnati authority to use a drug called "Minard's Liniment." It is a corn reliever and soon the entire corn, root and all, lifts out with the fingers. It is a sticky, ether compound which dries the moment it is applied. It is not irritating to the skin without inflaming or even irritating the surrounding tissue or even claiming that a quarter of an ounce of freestone will cost very little at all. It is a drug that will lift out a corn's one's feet of every hard or soft corn.

You are further warned that cutting a corn is a suicidal habit.

Civic Milk Supply

Winnipeg, Man.—In all probability Winnipeg in the near future, will have a municipal milk supply of its own. Application will be made to the service legislation board for legislation to establish a dairy system.

TO ALL WOMEN WHO ARE ILL

This Woman Recommends
Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done for me. I have been ill for a long time and have gained in health and strength. My husband and I both praise it. It is a good medicine for all women who are ill, suffering from any functional disturbance."—Mrs. JOHN KOPPELMAN, Lyndville, Neb.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, irregularities, nervousness, headache, neuralgia, or any other ailment to give this successful remedy a trial.

For special suggestions in regard to the use of Lydia E. Pinkham's Vegetable Compound, or, Lynn, Mass. The result of my long experience is at your service.

B.C. Has Most Coal

Fifty Minerals Essential to Industry To Be Found in the Province
Vancouver, B. C. — The iron and steel industry, formed the subject of a highly interesting address given to the Chamber of Commerce, recently, by Dr. Edwin T. Hodge, professor of geology at the University of British Columbia. He spoke in an optimistic manner and mentioned about fifty minerals, each of which was essential to industry, and each of which was to be found in the province. His statement that the iron and steel industry required not so much iron as coal to make it a success startled his hearers. Canada, he said, had 1,200,000 million tons of coal, and of this, British Columbia had the best and the most.

CHILDHOOD CONSTIPATION

Constipation is one of the most common ailments of babyhood and childhood and unless it is promptly cured will undoubtedly lead to serious results. To cure this trouble with the least possible delay, and to give the child a laxative which instantly regulates the bowels and sweetens the stomach, thus banishing constipation, colic, eczema, etc., Constipation, then, Mrs. Eugene Valliant gave her Baby's Own Tablets, and was well satisfied with the result. I would strongly recommend them to all mothers for this trouble. The tablets are in the form of a small pill or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Wolves Destroy Food

Calgary, Alta. — Enough caribou has been destroyed by wolves in the last few months in northern Alberta and Saskatchewan every year to feed a large part of the population, says J. A. Roze, who has seen the last few years in Alaska, Prince Rupert, and northern Saskatchewan.

Only One "BROMO QUININE" To get the genuine, call for the name LAXATIVE and Bromo Quinine on the wrapper or signature of E. W. GROVE, Cans.

Victoria Air Mail

Postal Service In Within Bounds of Possibility

Victoria, B. C. — With flying boats able to make from 83 to 90 miles an hour, the postal service between Vancouver and Victoria, and Vancouver and Nanaimo, is within the bounds of possibility, and there is a strong probability that before next summer a very fast, efficient service will be in a position to give demonstrations of its practicability with the flying boat they are now constructing. The practicability of such a service presents no difficulties to Messrs. Hoffer Bros., of Georgia street, who recently have commenced construction of a new building in which to complete the flying boat. The machine they are constructing will cost something like \$100,000, which \$60,000 is represented by the motor. It is designed to carry three passengers, or with ease, 250 pounds of mail.

Relief for Suffering Women

He whose life is made miserable by the suffering that comes from indigestion, flatulence, constipation, and other ailments, will find relief in the use of "Vegetable Compound." This will relieve the sufferer from all these ailments, and will give him a healthy and happy life.

Good News For Farmers

Small Tractors and Meat Cattle Shop On Free List

Ottawa. — Gasoline farm tractors costing less than \$1,400 remain on the free list "until otherwise provided for." Meat cattle remain on the free list for another year, dating from Feb. 7, 1919.

Both were originally placed on the free list for one year, dating from Feb. 7, 1918. By further order-in-council, the period in which "Bromine" and refund of duty are authorized is now extended as indicated.

An additional order has been passed, granting a drawback of 95 per cent of the duty paid on imported materials used after the 7th day of February, 1918, in the manufacture of gas or gasoline traction engines for farm purposes and repairs thereof, and in the manufacture of traction attachments and repairs with accessories in Canada for use as traction engines for farm purposes.

It is understood that the number of these engines imported for farm purposes has been several thousand per annum, while the quantity manufactured in Canada each year has been less than 5 per cent of importations.

Making peace seems to be a less complicated matter than making war.—Detroit Free Press.

IN EVERY STABLE
SPOHN'S DISTEMPER COMPOUND
is the most reliable remedy for contagious and infectious diseases among horses and mules. It cures as a preventive and cure for DISTEMPERS, INFLUENZA, PINK EYES, COUGHS and COLDS for more than twenty years is the highest tribute to its merit. It is sold by druggists, and is the best horse and mule medicine in America. Buy it of your druggist.

HIRST'S PAIN EXTERMINATOR

Pain? Hirst's will stop it!
Used for 40 years to relieve rheumatism, lumbago, neuralgia, sprains, lambs, toothache, earache, swollen joints, sore throat and other painful complaints. Have a bottle in the house. All druggists or write to HIRST REMEDY COMPANY, Hamilton, Canada.

Expect Big Yield

Bumper Crops are Anticipated in Manitoba This Year

Winnipeg, Man. — Conditions were never better at this time of the year than they are now, and the prospects for a good crop next season were never brighter in the opinion of J. H. Evans, deputy minister of agriculture, as expressed recently. Mr. Evans referred to the large areas of new breaking land prepared for spring sowing, and emphasized the point that prospects were never better in Manitoba than today for a bumper crop, if anything like satisfactory weather conditions prevail during the summer.

Things Swearing All Right

Providing the provocation equals the effect of the curse, it is all right to swear. It is better to swear than to be a victim of the curse. It is better to swear than to be a victim of the curse. It is better to swear than to be a victim of the curse.

Want to Return to Europe

Ottawa. — It is learned that many thousands of aliens at present residing in Canada are desirous of leaving the Dominion and are willing to pay their own expenses to Europe. The government is desirous of leaving the Dominion and are willing to pay their own expenses to Europe. The government is desirous of leaving the Dominion and are willing to pay their own expenses to Europe.

Wants are Disregarded that die

appear when treated with Holloway's Corn Cure.

Fewer Children Die

Winnipeg, Man. — Despite the influenza less children died in Winnipeg in 1918 than in 1917, according to the report of officials issued recently. During last year the number of deaths among children under one year of age was 509, or 91 per thousand births. In 1917 the figure was 585. In 1912, when the department took over the work, the rate was 21 deaths per thousand births.

B. C. Land Settlements

Victoria, B. C. — Melvorne H. Nelson, formerly of St. Thomas and Woodstock, Ont., has been appointed chairman of the British Columbia land settlement board, succeeding Maxwell Smith. The reorganized board will have members from three, C. R. Ward and F. R. Delah, being the other members.

Some women wear like men, while

Others will not even dare socks

The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflates and press down on the heart and interfere with its regular action, causing drops of blood to be forced out of the heart. Dr. Hirst's Cardiac Syrup after meals aids digestion and quickly allows the heart to beat full and regular.

Obituary

John Henry Snaul, died at
Cavendish, Alberta, Canada, on
Saturday, February 8, at one
o'clock a.m., at the age of
63 years, 4 months, 2 days.

Mr. Snaul was born at Harris-
burg, Penn., on October 6, 1855.
When still very young, he moved
with his parents to Bucyrus,
Ohio, living there until he
reached manhood. In 1870 he
went to Nebraska, and on the
28th of May, 1882, was united in
marriage to Miss Reila May
Bivens. Soon afterwards the
young couple moved to north-
western Nebraska, and took a home-
stead near Purdum, on which
they made their home for nearly
thirty years. By this time
the children had grown and
gone to Canada to make their
homes. So the parents fol-
lowed in 1913, making their
home at Cavendish, where the
family now reside.

Mr. Snaul was a member of
the Church, having united with
the Church when sixteen years
of age. He was also a mem-
ber of the Knights of Pythias.

It will be remembered by
friends of the deceased that he
has been in poor health for the
past twenty-five years, suffer-
ing long and patiently. For
the past two weeks he had
been failing slowly but steadily
until he passed quietly away.
He is survived by his wife,
Mrs. John H. Snaul, three sons, Oney
W., Harold W., and Leo K.,
and an adopted daughter, Nina
B. Snaul, all of Cavendish. Also
one brother, Madison M. Snaul,
of Sanford, Mich.

Funeral service was held Sun-
day afternoon at 3 o'clock at
the family residence, conducted
by the Rev. G. G. Pybus, of
Empress, Alta.

The service was attended by
a large number of friends and
neighbors, who wish to extend
their most sincere and heartfelt
sympathy to the bereaved fam-
ily.

—Com.

Buenos Aires has had 157
strikes in 10 months.
Rev. G. G. Pybus has received
word from the senior Army
Chaplain, London, England,
that Corp. L. N. Pullen, 690429,
Empress, Alberta, may be ex-
pected home shortly.

GREAT MOMENTS

There come great moments to us all,
As when we dare to stand or fall
For honor or for liberty;
Or putting earthly feud aside
And undraught of scorn or pain,
We choose to suffer and be tried
To keep our souls without a stain.

Not always is our vision clear,
Not always can we see aright,
Life has so much confusion here
That truth is blurred and hid from sight.

But still there comes to every man
Great moments when he understands
The glory of the Master's plan,
And then it is his soul expands.

He that has stood beside the bier
Of one he loved, has seen how vain
Are treasures that men gather here,
How trivial are loss and gain.

He that has cooled a fevered brow
And sought the hand of death to stay,
Has learned that all to grief must bow,
Nor gold nor fame can spare the day.

There come great moments to us all
When flashes of the truth we see—
When we discover just how small
Things are in life's mighty scheme;
And in these moments troubled, tried,
We rise above all selfish gain
And put the joys of earth aside
To keep our souls without a stain.

A Song for Every Mood

Music gives expression to every human emotion. All that is happy and beautiful in life, has been expressed in music.

When things seem bright and cheerful because a ray of happiness has come into your life, you need an outlet to give vent to your feelings.

When sorrow or depression comes, the need of consolation is even greater.

It is at such times that you derive the greatest comfort from

The NEW EDISON

"The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case, or one ripple of melody from the bow of Albert Spalding, puts your soul in harmony with the world. Music—real music—is one of life's greatest boons. Edison music is real music because the New Edison does not merely imitate, it re-creates. One never tires of the New Edison, the novelty never wears off, because there is no novelty to wear off. It is not just another "talking machine". It is decidedly different. To appreciate the difference you must hear it.

Visit the Edison
shop in the

Britain and U. S. Can Prevent Future Wars

Paris. — Success or failure of the league of nations depends almost wholly on Britain and the United States. This statement was made to the United Press by Major-General Frederick Maurice, British expert on military and international affairs. He was director of military operations for the British general staff when the British were opposing the German drive practically unaided, and he made his famous "Where is Blencourt?" statement.

"I am absolutely certain that a real league of nations is going through," said Maurice. "Every day it is more fully realized that the league is not an ideal, but it is a workable proposition. The more closely the matter of restoration and restoration is gone into and the more actual information is obtained, the more certain it is that we will not get enough out of the central powers, either in the way of material to set the world on its legs again. It is obvious that, at the very best, our repair bills will be only partially met."

There won't be any indemnities from which the world will be able to finance the new development of the German colonies, said Maurice, because the new republics which are struggling up in eastern and southeastern Europe.

"We recognize that one of the chief difficulties in maintenance of the league is that democratic states are loathe to commit themselves to definitely supplying troops to fight in any part of the world to uphold the league's authority. That difficulty need not arise. Great Britain and the United States are recognized as holding the chief weapon of the league, economic pressure — the method for exercising which is necessary to the maintenance of the league. If the United States and Great Britain agree to place their naval power at the disposal of the league, I don't see how any nation will ever again dare to think of war."

Stores Sell Iron Crosses

German Newspaper Says Traffic Is Inducement

Coblenz, Germany. — The German food authorities justify the flourishing "black-market" trade in iron crosses as a bridgehead area of the Rhine valley when they threatened drastic punishment for local stores selling iron crosses. Purchasing agents' decisions either to carry home as souvenirs or to sell in Paris at greatly advanced prices is a favorite occupation of the junkers. One junk profiteer bought 100 iron crosses at \$2 each, assured of selling them to Americans attending the peace conference for 210 each.

A local newspaper denounces the traffic in iron crosses as an industry, particularly, of the junk profiteers selected for the distribution of food supplies. It says that if they display crosses for sale, they will deprive them of the right to sell foods.

Put Responsibility on Royalty
Bern. — A violent rhetorical duet between the French and the royalists, with many reciprocal approaches and accusations, marked the second sitting of the international labor and socialist conference.

Otto Wells, the former military commander of Berlin, defended the German position, and said that the German Socialists already had settled the question of responsibility for the war in having taken all power from the princes and kings. Wells accused Great Britain of having killed 700,000 German women, children and old men by the "hunger blockade."

A proposal is made in British Columbia to remove the line of the Northwest Mounted Police.

Small Nations Want To Be Given Greater Power

Paris. — Although the five great allied and associated powers who are directing the peace conference have turned over much of the work to commissions, the society of nations question, especially with reference to the smaller nations, is becoming a more and more knotty problem. The smaller nations, it is declared, want full equality in a society of nations and also greater powers than the plans already outlined give to them. The great powers, on the other hand, are faced with a situation that if each state is given a member on an supreme court of nations they might find them-

Must Have Coal

Paris. — Hugh S. Gibson, Captain T. C. Ferguson and other representatives of the inter-allied food relief commission returned to Paris to make a report to Herbert Hoover, director general of the commission, after several weeks' travel through Poland, Austria, Hungary, Czechoslovakia, Jugoslavia and Serbia. "Coal is now the most pressing need in Czechoslovakia, Austria and Hungary," said Capt. Ferguson. "and without an increased fuel supply food relief on a large scale is impossible. Only one-tenth of the possible number of trains are operating in Austria and Hungary because of lack of coal, and conditions are little better in Czechoslovakia."

Program Suggested

Resolutions for World League Adopted by Peace Societies

Paris. — A conference of allied peace societies, comprising delegates of the United States, England, France and Belgium, adopted resolutions adopted by it in addition to the aims outlined in the plans handed by Leon Bourgeois to the allied premier.

They declare for an international bureau of labor and periodic conference between employers and employees in line with the British program now before the labor conference. They recommend the creation of an international commission of education to inform the public on the functions of the league of nations and to coordinate its policies in the doctrines of democratic citizenship.

They further recommend that the enemy countries be required to limit their armament and manufacture of arms and munitions in order to enable the extent states to reduce their military forces.

They declare that the allied states should content themselves with the enormous stock of arms and munitions of war now in their hands as a result of the war and the seizure of many stores, and should forbid the sale of arms and munitions by the states in the league to others. American delegates declined to endorse some of the recommendations, holding that disarmament would not be possible until the league had sufficient force of control of the enemy states until the latter were completely disarmed. They also objected to the provision of the manufacture of arms and munitions as calculated to prevent scientific developments that might benefit the world.

German Damage Buildings

London. — During the bombardment of Bremen, the city hall was damaged and many houses partly destroyed, according to an Exchange Telegraph company despatch from Copenhagen.

The government troops made their entrance after the city had been bombarded. Many persons are reported to have been killed in the bombardment. Armed Spartacists from Gotha are on their way to Bremen to the support of the Spartacists there.

"Save the Kaiser" Society Organizing

Amsterdam. — Societies to "save the Kaiser" from being handed over to the allies are being organized in Germany, according to the Volks Zeitung of Osnabrück. Eitel Frederick, second son of the former emperor, is said to have written a letter to the premier demanding that the government assist in the plan.

Italy's War Debt

Relatively Higher Than That of the Other Allies

Rome. — Italy's national debt is now more than \$12,500,000,000, whereas when she entered the war it was about \$750,000,000, declared Luigi Luzzatti, former premier and a leading Italian financial authority, in a statement urging financial aid to Italy. He said that when pensions, government bills to manufacturers and other necessary expenditures had been paid, the national debt probably would total \$16,000,000,000.

"Italy, I am said to say, leads the whole world in the relative height of its war debt," he said. "Subtracting Italy's losses in men and money, her national wealth is only about \$30,000,000,000. If all the war loans of the entire should be thrown together, the total would be about \$100,000,000,000. In one consolidated sum, Italy and France, whose losses in men and substance have been the greatest, would be compensated by bearing a small proportion of the war debt."

"The United States and Great Britain are not only strong, but generous, and they will acknowledge that Italy and France, the two principal centres of 'teutonic slaughter' and devastation, should be supported financially, therefore, with correspondingly greater help."

Direction Finding Stations Established

Will Prove of Great Value to Vessels Lost in Fog

Ottawa. — The department of the naval service has established on the east coast of Canada four direction finding stations which will, it is expected, prove of great value to vessels lost in the fog and unable to determine their position. These stations are located at Cape Sable, at the mouth of Halifax harbor; Cape Canso, and Cape Race, Newfoundland. From any or all of these stations vessels equipped with wireless may obtain a bearing while still at a distance of several hundred miles from the coast.

An ordinary wireless telegraph station there are no means for determining the direction from which incoming signals are being received.

At the opening of the war efforts were concentrated upon the development of the direction finding station in order to locate the position of the ship carrying wireless equipment. An invention by two Italians solved the problem and this has been installed in the Canadian stations. Since the signing of the armistice, however, the stations have been placed at the disposal of commercial shipping in order that information to this effect is being distributed all over the world.

The Trail of the Hun

The River Scheldt and broken bridge at Tournai

Need Long Credits

In Order to Give the Nations Breathing Time

Paris. — Abin W. Krich, president of the Equitable Trust company of New York, who is visiting France for the purpose of studying the financial condition, and, if possible, ameliorating it, said to the Associated Press:

"A temporary suspension of liquidation by the governments to one another ought to be one of the first expedients of inter-governmental finance. I think that for the present we should have an international moratorium between the governments in order to give the nations breathing time."

"France owes England and America; Belgium owes France, England and America; Italy owes America, England and France. The small nations owe the big ones. No one of them, large or small, can conveniently pay at the moment. Hence, they all need an international moratorium, to afford time for reconstruction. Even Germany must have time to make payments."

"It seems to me that this is the time that America, with infinite advantage to herself, may supplement her military support, now that the occasion for such support has practically disappeared, becoming a genuine factor in the establishment of a intimate union with France for the promotion of the material interests of both countries."

Wounded Coming Via U. S.

Washington. — Plans for landing wounded Canadian troops at Portland, Maine, with the approval of the United States government, were announced by the American Red Cross. Transfer of the men by rail across Maine and New Hampshire will take many hours off their journey home, and will enable them to reach their homes in a few days, two consignments a month being shipped.

The Canada, the first of the wooden 1,500 ton steamers being built by British Columbia for the French government, is being launched at the Lyall shipyards at Vancouver. Twenty of the ships are being built in Vancouver, and twenty at Victoria.

Will Be Crime to Build Subs.

Statements Favor Abolition of the U-boat

London. — According to a report received from Paris by the day of New York that the American plan for assuring freedom of the seas includes the restricted use or abolition of the submarine, the Daily Telegraph says:

"At this country, and we suffered worse than all other nations, that fact may be overlooked. Besides ships we lost cargoes valued at hundreds of millions of pounds sterling, while 15,000 British men, women and children were assassinated at sea."

"As we made no special representations on this subject there has been a tendency to suggest that we emerged from this policy rather well off. Let it be remarked once more that 9,000,000 tons of our shipping lie at the bottom of the sea. We are more interested than any community in the proposal for the abolition of the submarine, but a large body of naval opinion, and even a larger proportion of statements on both sides of the Atlantic favor the abolition of the U-boat."

"The only reason it is to be safe for democracy something more than a declaration to the limits within which submarines may be employed must be made. It must be stipulated as a crime to build submarines and power must be secured to punish any nation which again embarks on this kind of naval construction."

Air Mechanics Rebel

London. — More than four thousand mechanics of the Royal Air Service corps have refused to go on duty in deposit adjoining London. They claim that their contract with the government as soldiers is ended and demand that they be demobilized and engaged as civilians should be the work, or be given the same pay that civilians would earn.

By Money Order Only

Ottawa. — The post office department announces that the Italian postal administration urges that all remittances to Italy should be made by means of money orders, as it declines all responsibility in case of tampering with valuable enclosures in registered letters.

British Forces Prepare to Evacuate Northern Russia

To Draft New Treaty

Paris. — Sir George Foster, Dominion minister of trade and commerce, interviewed by the newspaper Excelsior, said that France had informed Canada of her desire to denounce the 1915 treaty, as well as all other similar treaties. Pending fresh agreements, traffic of goods would continue under the old conditions. Continuing, Sir George said that the future clauses would naturally depend on the attitude of the two countries in accordance with the customs arrangements.

Ontario lumbermen have sent a representative overseas to endeavor to secure some of the large orders of lumber required in reconstruction work in Great Britain, France and Belgium.

The Canadian National Railway has placed orders for the construction of 2,830 cars of all varieties.

Claim Complete Success

Royalties in Portugal Have Proclaimed Monarchy

Paris. — A detachment from Oporto says that royalists sources in Portugal announce the complete success of the royalist attack on the town of Badajoz. The detachment adds that the troops have proclaimed a monarchy.

Lisbon. — Monarchist troops, it is announced, have been defeated in action at Covilha, southeast of Oporto, near the Spanish frontier, by republican forces under Lison Ferreira, who are advancing on guard to the northeast. The republican flag now flies over the towns of Covilha and Castello Branco, and the monarchists are retreating on Rego, where their headquarters have been established.

Along the coast the republicans have occupied Foz de Areliz and the monarchists are evacuating Estarreja, south of Oporto. Communication with Lisbon has been restored as far north as Aveiro.

Military courts have been established to consider the question of punishing civil and military officials hostile to the republican regime. The government, it is added, has no confidence in the warden of the prisons and penitentiaries and will dismiss them.

The government announces that the monarchists have been driven from the country will be held responsible for all damages in the zone where fighting is now going on, as well as for most expenses incurred in putting down the monarchist movement.

Alies Must Watch Germany

Brother-in-Law of Former Russian Emperor Issues Warning

Paris. — The former Grand Duke Alexander Michaelovich, brother-in-law of the former Russian emperor, who has arrived in Paris, as he declares, "not for political purposes, but to make known the truth about Russia and its future." He says that the allies must beware of Germany in Russia.

"France has every reason to save Russia," he declared. "If you do not intervene now, be sure that Germany will intervene in her own time. Behind this is the future of Russia, which is now at my mercy, hides within itself a hate which will find its outlet in Russia."

"A league of nations or a society of peoples is such a thing of it. It remains to be seen if the nations will be able to make a moral and material blow by hesitating too long to cleanse the Russian soil which threatens to contaminate the whole world."

France Takes Stern Measures To Suppress Food Profiteers

Paris. — The government bill under which it is intended to repress increased prices of foodstuffs and speculation, and the curtailing of foodstuffs has been drafted. The cabinet met and examined the subject of the increased cost of living and it was decided then to prepare the bill.

Under the measure, any attempt to interfere with free commercial competition would be punished by a prison sentence ranging from a month to a year and a fine of from 500 francs to 50,000 francs. Attempts at interference were carefully defined in broad language in the bill. Penalties are provided for a greatly increased scale in the case of a person appearing illegally in a commodity in which he does not deal habitually.

Publicity is to be given to persons convicted of the offence, but by affixing documents to their homes, shops, or other places of business. The trial court is to fix the size of the notice to be posted and the notice shall remain exposed. Extra penalties are provided for the suppression of circulating notices by convicted persons.

A provision of the bill is that a second offender, on conviction, may be sentenced to the galleys for five years and also forbidden to accept employment in any capacity in connection with the commerce previously worked.
